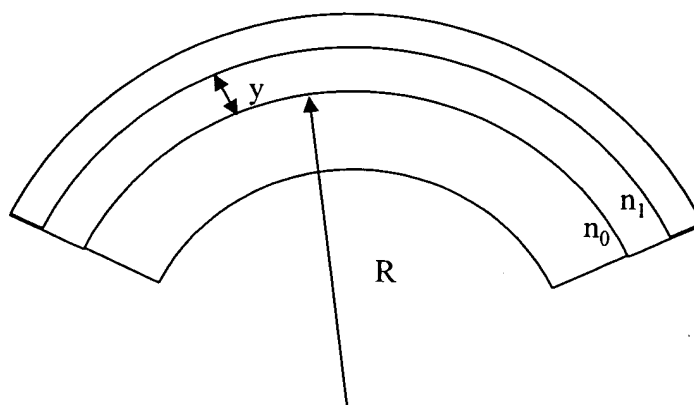

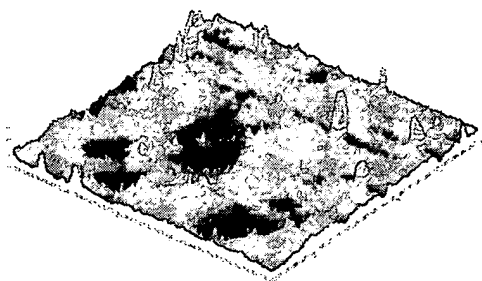

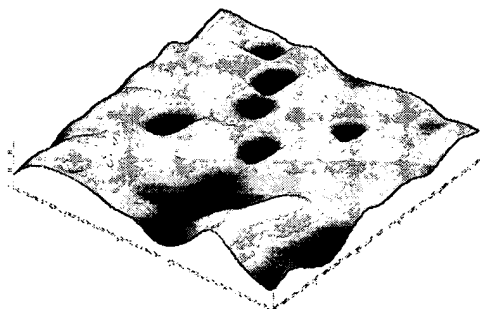

Fig. 2

Fig. 3A

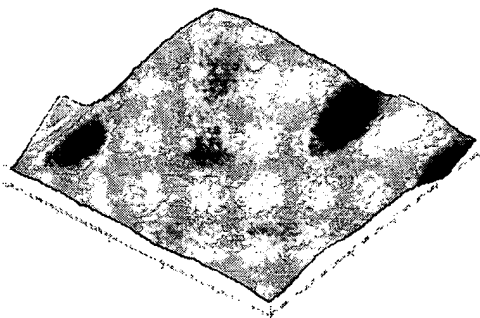

The surface of
PET substrates.

Fig. 3B

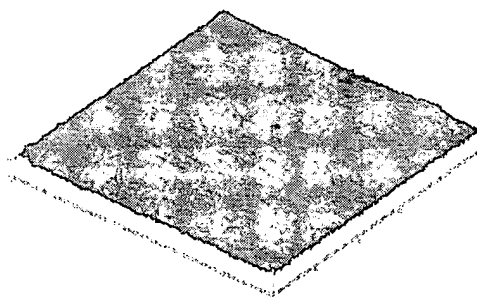

The surface of the UV curable
resins with the thickness of
80nm on PET substrates.

Fig. 3C

The surface of the UV curable
resins with the thickness of
150nm on PET substrates.

Fig. 3D

The surface of the UV curable
resins with the thickness of
300nm on PET substrates.
